

50kWh Lead-acid Battery Cabinet for Steel Plants

Overview

This 50kW/50kWh battery system includes ten LiFePO₄ modules, a 50kW inverter, and a smart EMS/BMS, all housed in a compact IP54 cabinet. It delivers reliable storage for peak load shaving, solar optimization, or backup support. Built for commercial use, the system is robust, space-efficient, and. The GCB-E50 is a high-performance, AC-coupled energy storage system (BESS) engineered for modern commercial and industrial (C&I) environments. This all-in-one cabinet seamlessly integrates a 50kW hybrid inverter, 50kWh high-voltage battery rack, and intelligent management systems. With smart monitoring, modular scalability, and multi-layer safety protection, it supports on-grid, off-grid, and microgrid applications. Multiple energy problems solved. Proven applications across manufacturing and commercial facilities. Many factories don't need megawatt-scale systems. Their development was aimed at limiting the emission of hydrogen into the.
