

660 Canadian Solar photovoltaic panel size

Overview

The Canadian 660w solar panel whose dimensions are 2384 × 1303 × 35 mm (93.38 in), is a monocrystalline solar panel made out of the highest-grade silicon. is committed to providing high quality solar products, solar system solutions and services to customers around the world. 6% efficiency rate, making it perfect for your domestic and commercial solar installations. 660W Canadian Solar Inc CS7N-660MB-AG solar panel — specifications, datasheet, warranty information and free installer quotes. With a rated power of 660W and 132 half-cut PERC cell technology, it provides low losses, stable operation at high temperatures. 1 module supplier for quality and performance/price ratio in the IHS Module Customer Insight Survey, and is a leading PV project developer and manufacturer of solar modules, with over 52 GW deployed around the world since 2001.
