

Accra s new solar panels

Overview

Ghana has begun building the 200 MW Norbert Anku solar park, its largest renewable investment to date, with plans to expand the project to 1 GW by 2032. JA Solar, a global leader in photovoltaic (PV) technology, is driving Ghana's renewable energy transformation with the successful installation of a 507 kW rooftop-canopy. The Ghanaian government has broken ground on the country's largest solar project, the Norbert Anku solar park, located in the Dawa Industrial. President John Dramani Mahama (left) at Dawa in the Greater Accra Region during a sod-cutting ceremony for the landmark 200MWp Solar for Industries (SFI) project, a step towards powering Ghana's industrial zones with clean and affordable energy. The company has developed an extensive solar photovoltaic (PV) production facility with a large building area of about 30,000 m² and an annual production capacity of approximately. The President of the Republic of Ghana, H.
