

Automatic photovoltaic panel lift

Overview

This innovative tool enables you to lift solar modules to the roof with ease and precision, making installation faster, safer, and more efficient. With its compact design and simple operation, Module Lift is ideal for both residential and commercial solar installations. With Yifeng original Solar lift, also called a panel lift or PV panel lift, is an economical solution for the speedy and safe transport of photovoltaic and solar panels. Specially designed with a custom carrier that functions as a cargo receptacle, Yifeng's solar panel lift is a space-saving way to. The solar panel lift is perfect for lifting various goods onto roofs or buildings. It can be swiftly and effortlessly assembled on-site without requiring tools, and its operation is straightforward. Current valuation stands at \$1. The device uses your existing fiberglass Werner or Louisville extension ladder. A pulley system is attached to the top of the ladder.
