

# Communication cabinet 200kWh warranty period

## Overview

Rules for starting warranty for C&I ESSs: The warranty period starts 90 days after Huawei shipment or the date when the customer applies for warranty triggering (not later than 90 days after shipment). Huawei provides the warranty extension service. After devices are delivered, both of them are automatically obtained. For products that have been disconnected from the network for more than six months or have not been connected to the FusionSolar SmartPVMS, Huawei. Huawei provides maximum 10-year performance warranty for the ESS. The performance warranty is not provided separately and is valid only during the product warranty period. The performance warranty standards are as follows: The warranty of energy storage system products is divided into basic. The outdoor cabinet-type photovoltaic storage system, boasting a power rating of 100kW/200kWh, seamlessly amalgamates energy storage batteries, PCS, power distribution, temperature regulation, fire safety measures, water-immersed door sensors, and monitoring and communication tools. Questions Related to Off-Grid Scenarios 1. Q: What is the 2s backflow prevention function?

Is it a globally unified requirement?

2. C&I ESSs must be connected to the.
