

Eco-friendly solar energy system prices in Saudi Arabia

Overview

This article gives you transparent 2026 SAR pricing for the three most-installed system sizes in the Kingdom — 5 kW, 10 kW, and 20 kW — including inverter, panels, battery, mounting, wiring, installation labour, and SEC paperwork. Real 2026 costs for 5kW, 10kW & 20kW solar systems in Saudi Arabia, with SAR pricing, payback periods, and city-by-city installation rates. Most Saudi solar installers will not give you a real price until you've spent 20 minutes on a discovery call. On average, the price of solar power systems can range from \$0.5 SAR per watt for residential installations. Wait, no – that figure doesn't include the new government subsidies introduced in. How much can I save with solar in Saudi?

Depending on electricity tariff and system size, savings of SAR 800-2,400/month for a 10-20 kW residential system. What about sand and dust?

Regular cleaning every 2-3 weeks is essential.
