

Photovoltaic panel frame pallet manufacturer

Overview

PVpallet makes reusable solar panel pallets and BOS bulk bins for EPCs, solar installers, and distributors. Our solar panel pallets and collapsible bulk bins are engineered for real jobsite conditions — reducing waste, cutting breakage, and improving logistics from transport to. PVpallet's Solar Panel Pallet is a revolutionary reusable pallets designed to protect, transport, and store solar panels with unmatched efficiency. Engineered for durability and sustainability, these pallets reduce panel breakage by up to 92% compared to standard packaging while streamlining. PVpallet's solar panel pallets are reusable, heavy-duty packaging solutions designed to protect solar modules across residential, commercial, and utility-scale projects. Every solar project has unique requirements. Our pallets feature. Our team works with you to understand your specific needs, panel dimensions, and shipping requirements to create the perfect pallet design. Every pallet. Automatically sorts modules based on bin information, compatible with all mainstream module types and packing methods—including vertical packing of both standard and glass-glass modules. Delivers high-speed, stable performance within a compact footprint.
