

Solar energy systems in Liberia

Overview

The first solar power plant in Liberia is on track to be inaugurated in October, the government confirmed recently as the country looks to wean itself off an over-reliance on hydropower. We harness the most valuable resource in rural areas —tight-knit communities — to provide life-changing products and services, starting with access to solar electricity. “The Government of Liberia, through the Ministry of Information, Culture, and Tourism (MICAT), has announced the. Liberia plans to reach electricity coverage of at least 70 percent of the population in Monrovia, and 35 percent na-tionwide by 2025. We welcome. Stone Age International provides expertly engineered solar PV systems, lithium battery storage, and hybrid energy solutions designed to eliminate outages, reduce generator costs, and power homes, businesses, and institutions with clean energy. Liberia's renewable energy sector is a cornerstone of national development, enabling industrial.
